06:02

Summary:

- You **need 80 credits** for L1 but it won't be awarded with Literacy and Numeracy
- You need **Literacy: 10cr**
- You need **Numeracy: 10cr**
- Most subjects have 16-22 credits and most students enrol in 100 - 120 credits.
- Our **Student Academic Support System** is designed to ensure no student fails.

KNOWING WHAT IS GOING ON

- **YEAR PLANNERS: OUTLINE THE CHECKPOINT AND DEADLINE DATES**
- **COURSE OUTLINES: GIVE DETAILS OF THE STANDARDS, THE CREDITS AND HOW THEY MAY CONTRIBUTE TO NUMERACY AND LITERACY**
- **THESE DOCUMENTS CAN BE FOUND ON M365 ONEDRIVE THROUGH TEAMS OR ONENOTE, WHICH IS THE SCHOOL'S DIGITAL PLATFORM AND STORAGE SYSTEM.**

Tracking student progress:

- When a student does not adequately meet a checkpoint, an email goes to the **Head of Curriculum** with details. An email will be sent home and Saturday catch up arranged. This will be supervised by **SLT** as part of the Saturday pastoral and academic student accountability programme. The same applies to final deadlines where the poor result is linked to lack of effort.
- **Specialist Academic Tracking Teacher:** tracks data (such as attendance, credits, Num/Lit) of all L1-3 students and supports students by keeping them aware of their progress and encourages them to see their teachers for solutions and help when plan B is necessary.
- **Specialist Academic Tracking Teacher reports** - as a first step - concerns onto **KAMAR for Deans** to note.
- **A second step** is for the Specialist Academic Tracking Teacher to **email Deans with specific details**. The Deans will check on the welfare and situation of the student. A plan will be made to assist the student.
- **The Deans** may ask the Specialist Academic Tracking Teacher for additional academic details and stats.
- **The Dean may include House class teachers** to be included in the support network for senior students.
- **A team effort** between the teachers, staff, student and families will ensure our boys will achieve to their full potential.

Log in to NZQA to track and access Record of Achievement

The school keeps a record of credits achieved at SJC but does not provide the student's formal **Record of Achievement**.

The school has its own system of storing the results as they are generated. It is the KAMAR programme. Once a month the results are exported to NZQA and update the students' formal Record of Achievement online. Other providers also send their results to NZQA to add to the student's records.

A log in is required. Each student has an **NSN** (National Student Number.) It is stored on KAMAR and any teacher can access it on the Academic Record page for each student.
